LAYERING IS KEY TO DESIGN

To achieve a warm and earthy-toned interior, start with a primary color palette of earthy hues. Layer in deeper shades for contrast and richness. Incorporate diverse textures through furniture and decor, such as plush fabrics, rough woods, and sisal rugs, to create a cozy and inviting atmosphere with tactile depth. Texture plays a pivotal role in making the space tactile and inviting. Incorporate different textures through your choice of upholstery, curtains, and decor. Think about a plush velvet sofa paired with a chunky knit throw, rough-textured wooden furniture contrasted with smooth ceramic vases, or a sisal rug underfoot for an organic touch.
